

Bogota, October 28, 2011

Dear sponsors:

Once again I write to you to greet you in a very special way. I wish you success in your daily activities and in your lives.

About me I tell you that I am about to finish 3<sup>rd</sup> grade. I only have 21 days of classes left. My grades have been good, each time I learn new things, I have good friends and very good teachers. Something I really liked this year is the emphasis my teachers have made about taking care of the environment and one way to do it is through recycling. They have also taught me to make different things out of recycled materials.

About the people I live with, I want to tell you that we have one person less because my grandfather Emilio died a month ago. His death made me really sad because I loved him very much and he used to pamper me a lot. Right now I live with my grandmother Flor and my mother. Our financial situation is a little challenging since my mother does not have a full time job because she has to take care of me and my grandmother. With great difficulty one of my uncles helps us to pay for home expenses and I can not always do things I want to because of the lack of money. I like music. I dream of playing the drums and also would like to learn how to swim on vacation, and of course to continue studying and for that I need your valuable support.

Last but not least, these days we have had cold temperatures and I have to be careful so I do not get ill.

From the bottom of my heart I thank you for your invaluable help. May God Almighty fill you with good health, wellbeing and peace in your lives!

Sincerely,

DANIEL ALEJANDRO
